Articles may cover a wide range of topics. However article topics must relate to the internet. Example topics include:

- Technical:
  - Web Programming
  - CSS/HTML
  - Javascript
  - Usability
  - Accessibility
  - Frameworks/CMSes/etc.
  - Testing
- Non-Technical:
  - Dealing with clients
  - Work Habits
  - Communication
  - Documentation

## Length

There are no requirements for the length of each article.

## Style

The style and tone will be determined by the author.

## Copyright

There are no requirements for the length of each article.
